Professional Feedback Form

PROFESSIONAL COLLABORATION TOOL • PROFESSIONAL RESOURCE

For treating professionals: recommendations, precautions and stop rules, priorities, adaptations — and what must remain with the qualified professional.

Area	Feedback / recommendation
Current professional recommendation relevant to everyday implementation	
Important precautions / contraindications / stop rules	
Functional priorities	
Suggested environmental or task adaptations	
What IMHC / support team may reinforce within scope	
What must remain with the treating / qualified professional	
Review timing / referral-back triggers
